Position
Front-end Designer-Developer

Overview
As a creative UI/UX designer, you will work collaboratively with clients and team members to assist in user interface design of websites, builds, layouts, and multiple assets in a responsive WordPress design, HTML / CSS environment. You'll create new experiences for web users by combining the art of design with the art of programming while building websites that are easy for users to navigate and that are visually appealing. This is a full-time position with comprehensive benefits including health and group insurance coverage.

Duties and Responsibilities
- Translate specs into wireframes and mockups that lead to intuitive user experiences
- Execute visual designs to meet user and client goals
- Collaborate on user experience planning with key stakeholders
- Synthesize user feedback, identify problems and devise solutions
- Transform ideas and mockups into high fidelity concepts and designs
- Work with several accounts at once and maintain a positive client relationship
- Work with assigned team members to complete the final product
- Use computer software to execute website designs and development of websites

Requirements and Qualifications
- Bachelor's degree in graphic design, design, or art preferred
- 2+ years experience in user experience design for web applications and digital products
- Strong conceptualization ability and visual communication ability
- Exceptional design skills with a high attention to detail
- Experience with using and creating user interface design patterns
- Expertise working with UX applications such as Photoshop, Illustrator and Sketch
- Knowledgeable with Microsoft Office (Word and PowerPoint)
- Experienced in WordPress, HTML5, CSS, SASS, PHP, Javascript, jQuery, Git for version control
- Solid communication skills (verbal/written) and thereby the ability to present concepts/lobby for good ideas
- Strong sense of time management, deadlines and the ability to adapt diverse challenges and competing priorities
- Desire to stay current on all design-programming-related technology trends and innovations, keeping the agency on the leading edge of interactive technology
